

How to Use Cuticle Nippers

Cuticle Nippers are a specialized tool designed to trim hang nails and dry, dead skin built up around the nail bed. Cuticle nippers are used in preparation for any nail treatment.

- ★ *Cuticle Nail Nippers, Jap Joints*
- ★ *Cuticle Nail Nippers, Box Joints*
- ★ *Nail Corner, Ingrown & Toe Nail Nippers*

All Nippers are completely hot drop forged from stainless steel in two categories;
 1) Lap joint 2) Box joint
 Each tool is machined and milled for perfection during assembly, which is then aligned to prevent slipping of the cutting tips. the angle of sharpness is designed to make low force cutting functions. Available in following finishes:
 Mirror, Satin, Sand-blasted, Gold-plated completely or partially, partially color coated.

Step 1.

Soak Your Cuticles

Prepare you cuticles by soaking your fingers in warm water for 5 minutes to soften your cuticles.

Step 2.

Push Back Cuticles

Now roll back and lift your cuticles from nail plate using a cuticle knife or cuticle pusher.

Step 3.

Clip Excess Dry Skin

Remove the excess cuticle and dry skin surrounding the nail by place the nippers over the excess cuticle. Firmly closing the blade of the nipper, then release and pull away. Make sure not to pull away before releasing because you can rip your cuticle if it is not fully clipped.

Step 4.

Buff Away Build-up & Imperfections

Lastly, remove any build up that may be left over and smooth imperfections with a nail buffing block using the rougher side.
